

PARIVARTAN

📍 | BELGAUM

Annual Issue – (Apr23 – March24)

🏡 VILLAGES: 10 | 👤 POPULATION: 27903

Dear All,

Greetings from Dalmia Bharat Foundation.

We trust this note finds you well. It's with great pleasure that Dalmia Bharat Foundation (DBF) Team reflects on the incredible journey undertaken in financial year 23-24, and we are thrilled to share our collective achievements through the pages of our Annual CSR Magazine

Team DBF, Belgaum

LIVELIHOOD INITIATIVES

- ➔ Facilitated 50 MNREGA job cards in Tondikatti village.
- ➔ Financially supported 200 farmers for purchasing cows and buffaloes, resulting in an annual family income increase of approximately ₹40,300.

- ➔ Supported 225 goat-rearing farmers by providing 2 pregnant goat-rearing models, leading to an additional family income increase of up to ₹32,500 annually

- Distributed 250 vermicompost bags to farmers interested in organic farming, reducing crop production input costs by up to ₹22,000 per annum.
- Increased milk production for 170 farmers by 1 to 2 liters by feeding Azolla, resulting in higher income and input cost savings of ₹18,500 annually.

- Supported 250 farmers with 750 grams of fodder seeds such as Lucerne/Alfalfa, Hedge Lucerne, and King 31/CofS31 for animal husbandry.

- Assisted 120 beneficiaries with 20 poultry farming models, increasing their annual income by up to ₹20,000.

SHG-BANK LINKAGE

- Eight SHGs were provided credit linkage worth ₹63.85 lakhs for initiating different livelihood activities such as dairy farming, goat rearing, petty shops etc.
- 154 members received loans.
- Eight new SHGs were formed covering 104 new members.

A SUCCESS STORY FROM LIVELIHOOD INITIATIVE

Narasappa Mallappa Gurani, belongs from Gulaganjikoppa village, embarked on commercial sugarcane cultivation across 5 acres, always eager to integrate the latest technologies. Upon advice from scientists and agricultural officers, he decided to incorporate vermicompost into his sugarcane crop. With 2 acres reserved for vermicompost application, he needed a substantial quantity. Sri Suresh Kumar stepped in to address this need by initiating vermicompost production, leveraging technical assistance from the Raita Sampoarka Kendra and Dalmia Bharat Foundation. Starting with a modest unit sized 12ft x 4ft x 3ft, he produced over 250 quintals in the first cycle within 3 months. Gurani began enhancing vermicompost quality by introducing biocontrol agents like *Trichoderma viridae*, *Pseudomonas fluorescence*, PSB, and *Azospirillum*. Utilizing this enriched vermicompost in his own fields, he started reaping significant profits through value addition and plans to expand production to cater to other farmers. His success story serves as a beacon of inspiration for those in the agricultural and allied sectors.

An Initiative towards Sustainable Agriculture

DALMIA INSTITUTE OF KNOWLEDGE AND SKILL HARNESSING

Nurturing Futures: Empowering Youth Through Skill Development

Skill development of rural youth plays a vital role in unlocking their potential and creating avenues for a brighter future. By providing tailored training programs and workshops, we equip them with the tools to excel in various trades and professions. This not only enhances their employability but also empowers them to contribute effectively to their communities' growth and development.

- Promoted kitchen gardens by providing vegetable seeds worth ₹1500 to 25 women.
- Installed 71 stone outlets (PVC pipes) at farm bunds for smooth rainwater drainage.
- Implemented drip irrigation for water conservation for 6 farmers.

GRAM PARIVARTAN PROJECT

(An action towards bringing change)

Introduction

The Gram Parivartan Program was launched with the aim of providing livelihoods that are economically sustainable, ecologically responsible, and socially equitable. The objective is to foster sustainable economic progress within selected communities, where household chosen for participation is expected to achieve an additional annual income of Rs. 1,00,000. This can be achieved through individual or group interventions and can function independently or converged with government programs.
